# SHIVAM TIWARI

MERN Stack Developer | React.js & Node.js

Baner, Pune, Maharashtra 411007 | 7709219682 | tiwarishivam5803@gmail.com | LinkedIn | GitHub

## PROFILE SUMMARY

MERN Stack Developer with 3 years of experience building full-stack, production-grade web applications using React.js, Redux, Node.js, Express, and MongoDB. Skilled in REST API design, scalable component architecture, and responsive UIs. Delivered large-scale public-facing civic platforms, cutting deployment time by 30% and developer rework by 40%.

## TECHNICAL SKILLS

- Frontend: React.js, Next.js, Redux/Redux Toolkit, TypeScript, JavaScript (ES6+), HTML5/CSS3, Tailwind CSS
- Backend: Node.js, Express.js, REST API design & integration, JWT authentication, role-based access control (RBAC)
- Databases: MongoDB (Mongoose), MySQL, Firebase
- Tools & Practices: Git/GitHub, Postman, AG Grid, VS Code, DSA, OOP, Agile/Scrum

## EXPERIENCE

**Solution Developer, Foxberry Technologies** **Apr 2025 – Present**
*Pune, Maharashtra*

- Built full-stack features across React.js and Node.js/Express services for large-scale, public-facing civic platforms deployed for the Pimpri Chinchwad Municipal Corporation (PCMC), including fire-incident management, health/sanitation survey, and smart-city admin dashboards.
- Engineered a custom internal React.js platform and shared component/UI library, standardizing feature visibility and reducing developer rework by 40% across projects.
- Integrated REST APIs with role-based, JWT-authenticated dashboards and CSV export pipelines with progress tracking, cutting deployment and feature rollout time by 30% across web and mobile.

**Software Developer, Kreon Solution** **Feb 2024 – Apr 2025**
*Mumbai, Maharashtra*

- Designed and developed the frontend for the Synergized Cotton platform, improving UI/UX for a live production audience.
- Built and tested REST APIs (shipment, invoice, token, and order-ID flows) using Postman for a Textile ERP, and implemented AG Grid for high-performance, sortable/filterable data tables.

## PROJECTS

**Uber Clone** | *MERN — MongoDB, Express, React, Node.js* **Jan 2026**

- Built a full-stack ride-booking application with JWT-based authentication for riders and drivers, and role-based access control.
- Designed REST APIs in Express/MongoDB for trip lifecycle management (request, accept, complete, history).
- Integrated Google Maps API for live location tracking, route display, and distance-based fare calculation.

**Task Management API & Dashboard** | *Node.js, Express, MongoDB, React, Redux* **Dec 2025**

- Designed a RESTful backend with Express and MongoDB (Mongoose schemas) supporting projects, tasks, and team members with JWT authentication and role-based permissions.
- Built a React/Redux dashboard consuming the API for task boards, filtering, and status updates; added input validation, centralized error handling, and pagination to keep the API production-ready.

## EDUCATION

**Thakur College of Engineering — Master of Computer Application** **2022 – 2024**
*Borivali, Mumbai* *CGPA: 8.05*

**Annasaheb Vartak College — B.Sc. in Information Technology** **2018 – 2021**
*Vasai Road, Mumbai* *CGPA: 7.80*
